TC-IIR

Twin Color Production Printer

COLOR > SPEED > QUALITY > ENHANCE > SAVE >

Fast, two-color printing in a single pass.

TC-IIR SPECIFICATIONS

COLOR > SPEED > QUALITY > ENHANCE > SAVE >

The Savin TC-IIR Two-color printing for less.

Add the Savin TC-IIR Twin Color Production Printer to your Savin 3590DNP Digital Duplicator and instantly print two colors in just one pass. With built-in savings, the Savin TC-IIR is more than a printer – it's a smart way to keep your business competitive. Commercial reproduction departments and print-for-pay companies can run multi-color jobs in-house and in record time for a fraction of what they would spend on a costly offset press. If you frequently outsource color jobs, you can replace those ongoing costs with one low-cost printer.

Experience fast, two-color, one-pass printing.

The Savin TC-IIR printer makes two-color printing with your Savin 3590DNP Digital Duplicator convenient and easy.

Simply create color-separated masters on the Savin 3590DNP and move the color-imaged cylinders to the TC-IIR. Press start and watch beautiful, two-color prints quickly collect in the output tray. Because you'll have all the advantages of Savin's Type 3590 ink, you don't even have to wait for the ink to dry.

- Get 120 11" x 17" prints per minute.
- Run two colors at once with the two inline color print cylinders and dual-cylinder port design.
- Single-feed engineering guarantees exact dot-on-dot registration of both colors, and creates quality results that rival those of an offset press.

Save time.

The Savin TC-IIR does more than cut production time in half by printing two colors at once – it also saves time by streamlining your operations. No more waiting for ink to dry. No more lengthy offset press make ready.

Take control.

Create customized jobs on the easy-to-use LCD display control. Select from a wide range of standard ink colors or order custom color inks that will be delivered right to your door. Print on card stock, NCR and embossed papers as well as irregularly sized sheets.

Protecting our shared environment.

The Savin TC-IIR Twin Color Production Printer meets our longstanding commitment to engineering office solutions with superior energy and supply-saving features, including:

- Instant Start Up (no warm up) Technology
- Power-saving Sleep Mode
- Zero Ozone Emissions
